

MS2000

INTELLIGENT BLOOD PRESSURE MEASURING SYSTEM

The DARAY **MEDISYS**® MS2000 intelligent blood pressure measuring system is a one touch fully automatic machine designed to give accurate results.

The system is easy to use with voice commands throughout the process. The cuff automatically determines the correct amount of pressure to apply whilst the angled position ensures user comfort.

- Automatic pressure detection
- Clear display
- Easy to use
- Printed BP result
- Comfortable for user
- PC link for analysis
- Voice commands give clear instructions and results
